

BLUE SPANVALL

PRODUCT DESCRIPTION

Blue Spanvall horse bedding is made from carefully selected and heat-treated white softwood shavings. The shavings have been dried down to 8-15 %. This provides a dry and warm bed with less bacteria. The shavings are especially well-suited for horses, as they are free of pointy objects that can become trapped in and irritate the sulcus and the high absorbency of horse bedding reduces the risk of sulcus thrush.

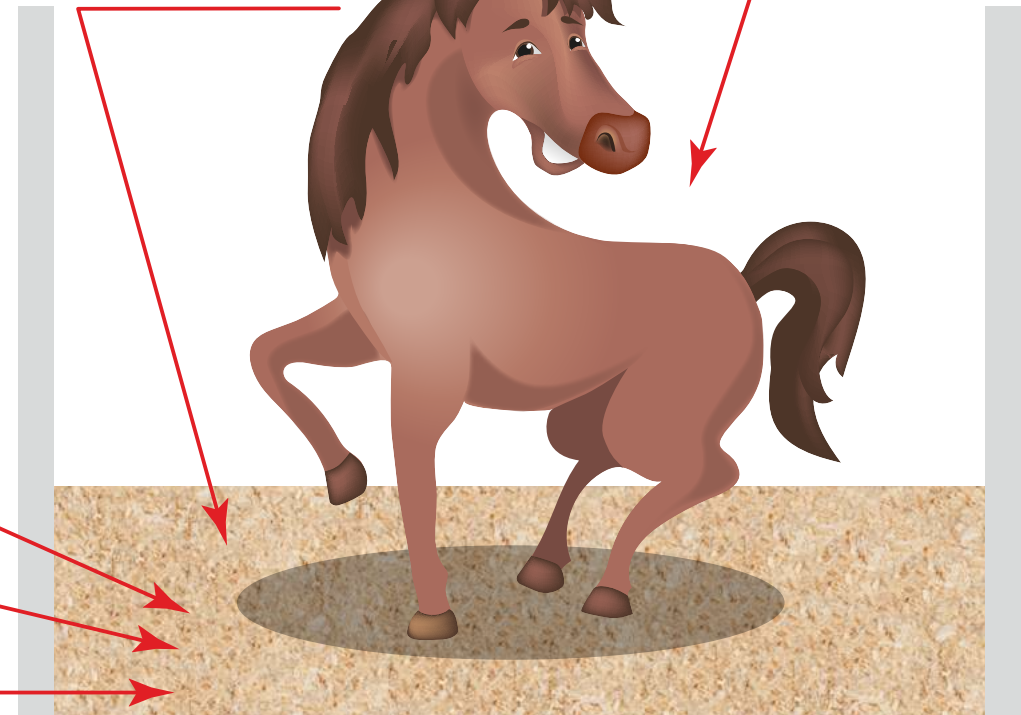

**100 %
biodegradable**

**High animal
welfare**

Dust-free

FSC-certified

Highly absorbent

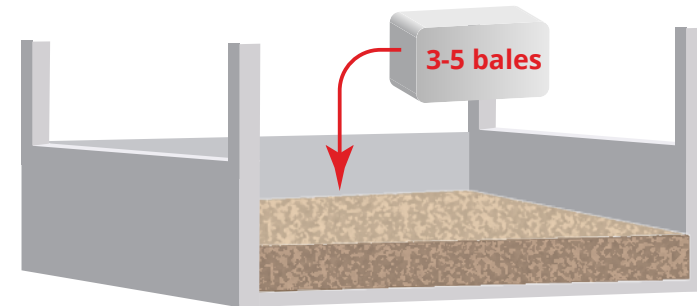

HOW TO USE

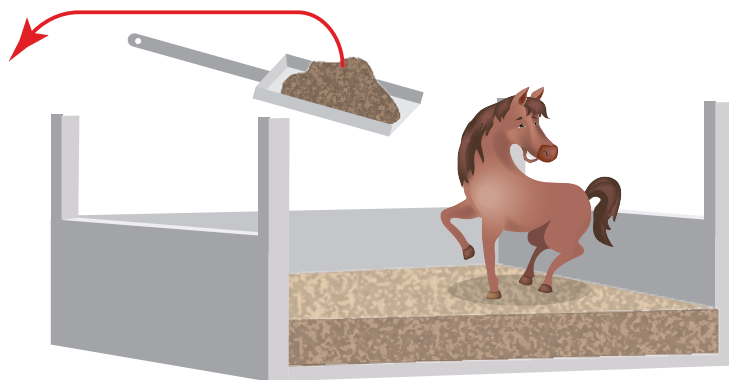

- 1 Clean and disinfect the stall before applying the bedding

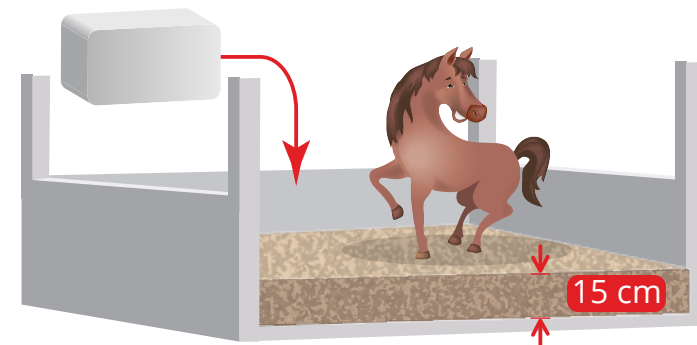

- 2 Spread approx. 3-5 bales of shavings evenly in the box (at a standard box of approx. 12 m²)

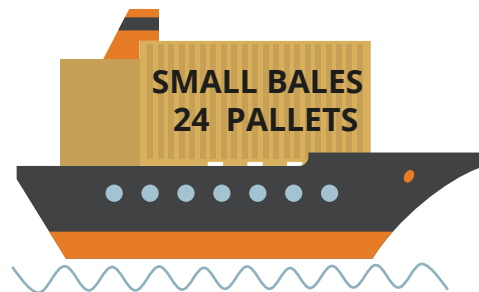

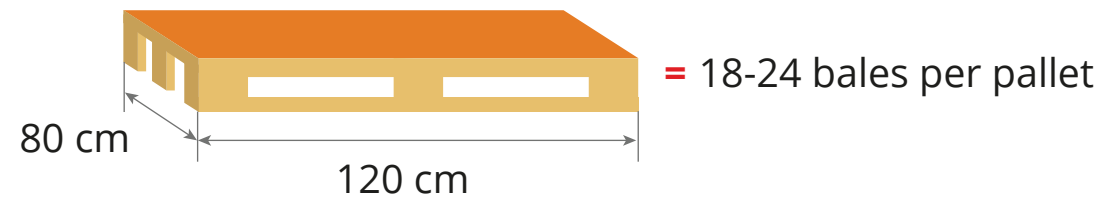

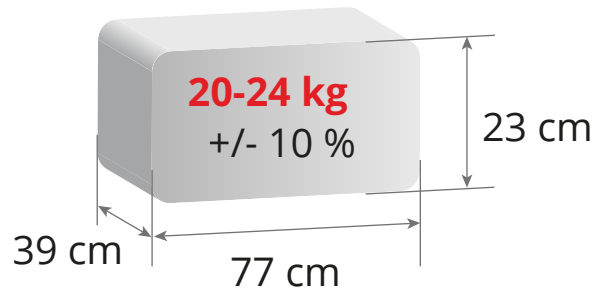

- 3 Remove wet spots (urine) and horse dropping daily

- 4 Add more shavings when necessary to maintain a suitable depth of approx. 15 cm
