

# ORANGE SPANVALL

## PRODUCT DESCRIPTION

Orange Spanvall is made from pure sawdust which has been dust reduced and heat-treated. Orange Spanvall stays in the stall when the cattle rummage through it. The bedding's structure is fine and soft and by applying fine sawdust, you achieve a higher absorbency that provides a dry and warm bed with fewer bacteria.

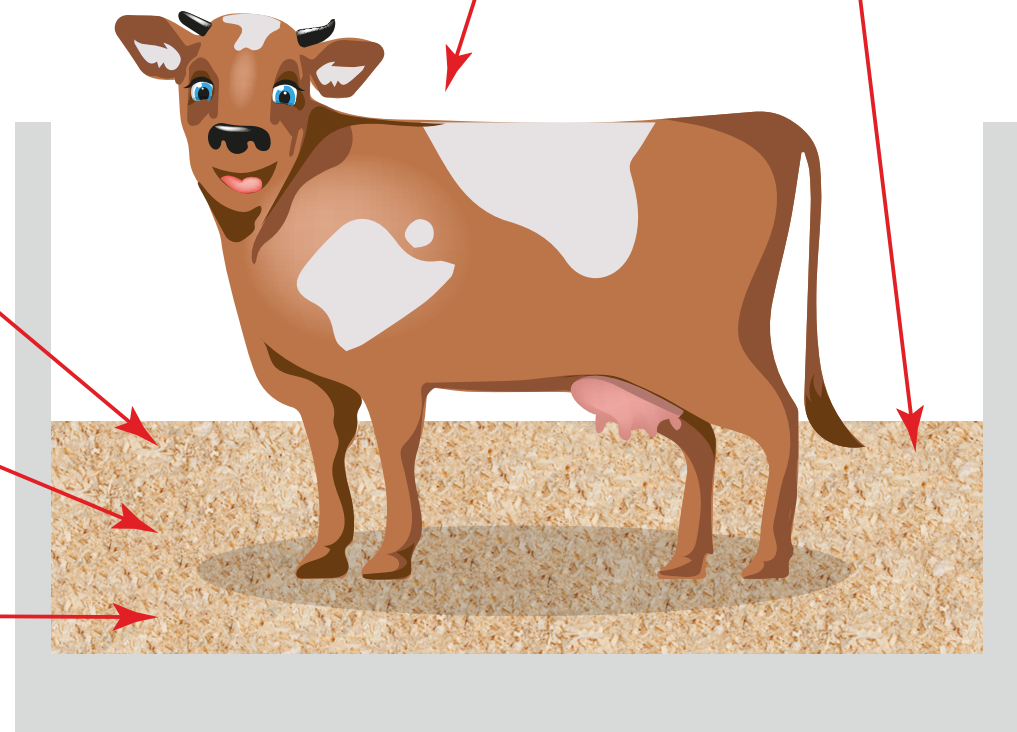

**Fewer bacteria**

**Binds ammonia and moisture**

**100 % biodegradable**

**High animal welfare**

**Absorbs 5 times its own weight**

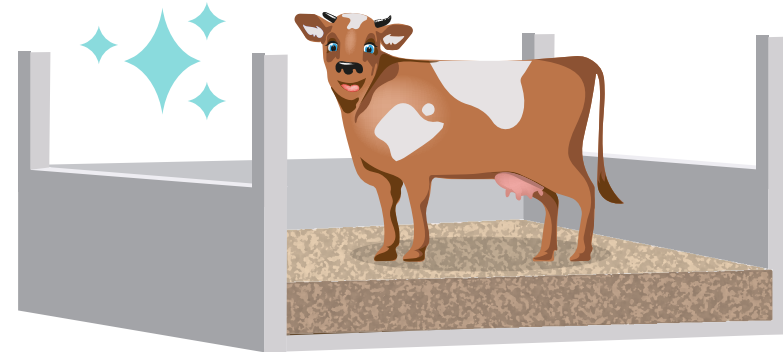

## HOW TO USE

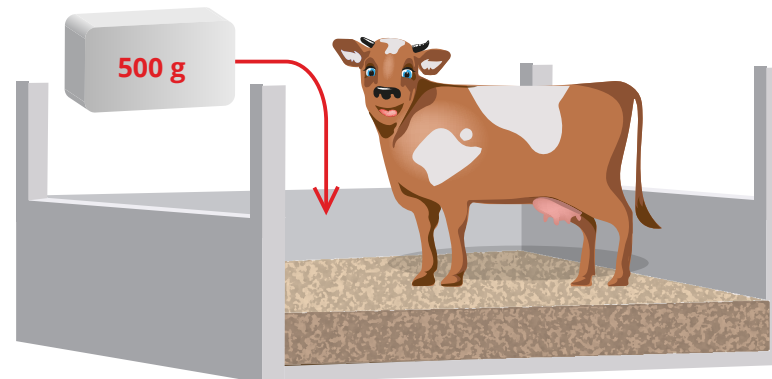

- 1** Clean and disinfect the stall before applying the bedding

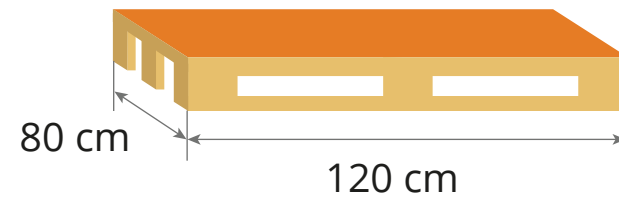

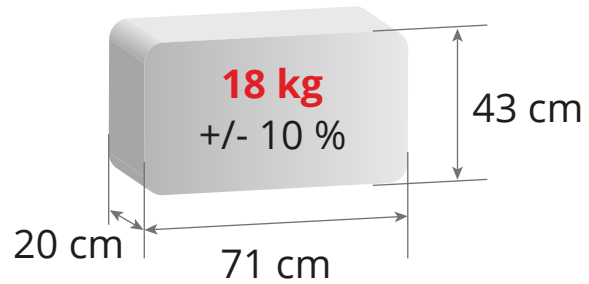

- 2** Clean the cattle beds daily

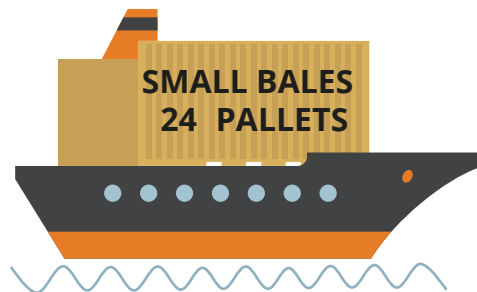

- 3** Apply approx. 500 gram of the bedding per cattle bed daily

**LOGISTICS**

= 33-36 bales per pallet

**40' HC CONTAINER**

**TENT TRUCK**
