

RED SPANVALL

PRODUCT DESCRIPTION

Red Spanvall is made of selected white wood shavings having a medium structure of a good quality which have been heat treated. The wood shavings are dust-free, and the moisture content of the shavings is between 8 and 15 percent, which provides for a dry and warm bed with fewer bacteria. Recommended for pigs from 7 to 20-30 kg,

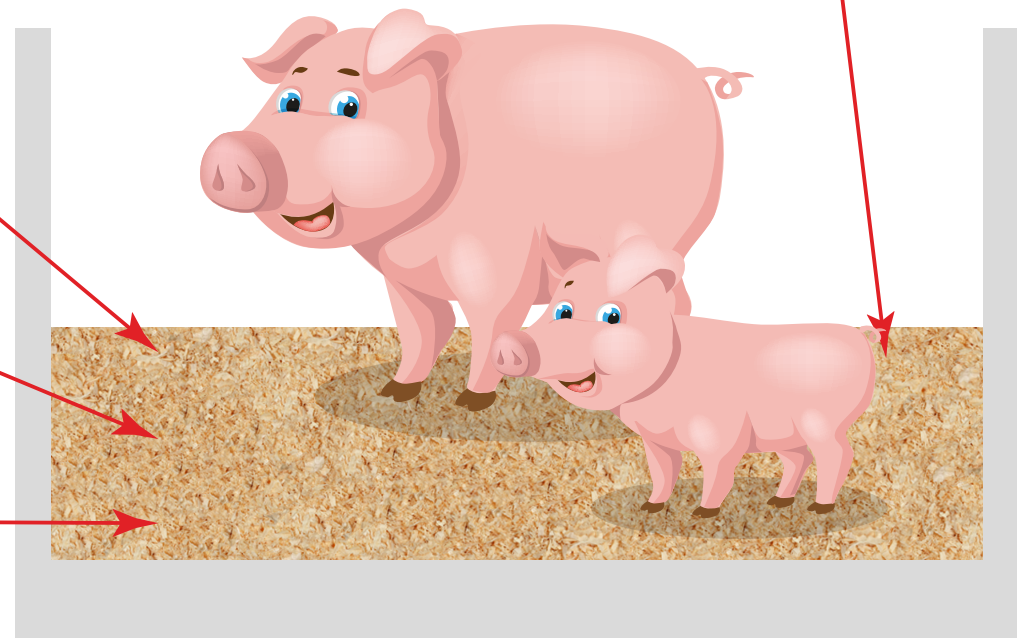

**Approved for use
in SPF herds**

**Binds ammonia
and moisture**

**100 %
biodegradable**

**High animal
welfare**

**Absorbs 5 times
its own weight**

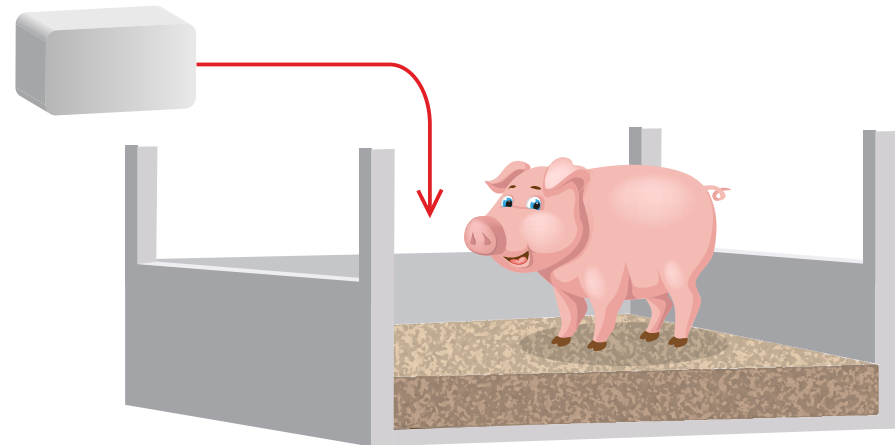

HOW TO USE

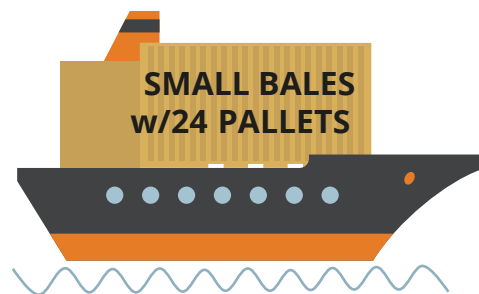

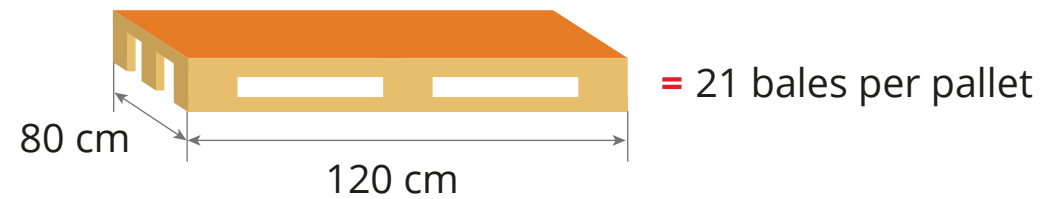

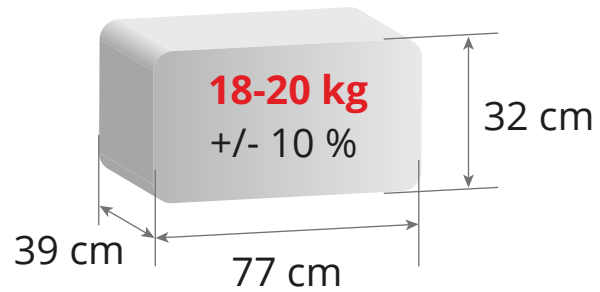

- 1** Clean and disinfect the stall

- 2** Dosing for pigs as required (the larger the quantity is, the more the pigs have to rummage in)
